

Master & Lead Agent Programs

Lead Agent / Affinity Program

LA1 – Designed for Individuals, Associations or Chambers, this Agent level receives an up front one-time commission for each referral given to Airdis that leads to a sale as per the schedule below:

- ✓ Network Circuits (T1, PRI, PTP, etc) - \$100
- ✓ Phone System Maintenance Agreement - \$50
- ✓ Phone System Sale - \$200

LA2 – Reserved for Corporations, Associations and Chambers looking to receive a monthly residual payment for Network Service or Maintenance Agreement referrals that lead to sales. The monthly recurring commission will be 5% of the monthly recurring charge to the customer not including usage revenue.

Master Agent Program

MA1 – Reserved for Corporations with 10 or more customer referrals per quarter. For Network Service referrals the master agent receives a one-time payment equal to 100% of the monthly recurring charge sold to the customer for 2-year contracts or greater. For 1-year contracts the master agent will only receive 50% of the monthly recurring charge. For a phone system referral that leads to a sale the master agent would receive a commission equal to \$15 per phone sold.

MA2 – Reserved for Corporations who would like to take a more active role in their customer's network service or phone system experience. At this master agent level we allow agents to set their own commission. Airdis handles all the network billing but the master agent is able to customize the bill to suit their customer's needs. This includes re-branding the bill to appear as the company serving your end-user's network services and adding margin on equipment and maintenance contracts sold.

**All Commissions will be paid 10-days after the final payment for equipment or the first months services are received from the referred customer
